PILLAGING SACRED SPACES

Organisation:

Universität zu Köln
 Institut für Altertumskunde, Abteilung Byzantinistik
 Dr. Mabi Angar in collaboration with
 PD Dr. Yvonne Petrina, Ludwig-Maximilians-Universität München

DIACHRONIC AND CROSS-CULTURAL PERSPECTIVES

While plundering has been an intrinsic part of warfare throughout human history, this workshop will explore the specific notion of pillaging sacred space from diachronic and cross-cultural perspectives. How is looting and destroying sacred space negotiated, conceived, and judged within the framework of conquest? Are individual 'arch-plunderers' discernible in various ancient and medieval cultures? How should we read accounts of pillaging sacred space? The speakers address these and related questions by analysing the plundering histories of particular sites and by tackling broader cultural trends and influences such as economic factors, religious zealotry, and the possibility of creating or enforcing norms.

**Contact and Registration:**

Participation is free, please register in advance by email:
